To the Farmers, Merchants and others of North Carolina:

HAVING ON MY RETURN FROM the Southwest, after the surrender of the Confederate forces in the Department of the Trans-Mississippi, secured an interest in the old house of

JAMES GORDON & COMPANY,

Commission Merchants of Norfolk, Virginia, a House well and favorably known to the people of North Carolina

FOR THE LAST FORTY YEARS,

I solicit from those with whom I was identified in upholding the great principles for which the Southern people so earnestly struggled, and for which as a Journalist, I am still contending, and shall continue to assert, a patronage, that shall encourage me in the effort to gain for myself and those dependent on me an honest livelihood, promising that when I shall cease to deserve your support, I shall also cease to expect or ask it.

That I may be the more accessible to the friends of the House in North Carolina, I shall remain in Wilson, where those wishing to see me on business with the House in Norfolk, will always find me at my office in the *North Carolinian* buildings. WM. A. HEARNE

By the conditions of the UNDERWRITER'S POLICY but ONE SET OF PAPERS is required to prove a loss to the several Companies insuring under it, thereby making the adjustment simple and expeditious.

The Cash Assets of each Company issuing the Underwriter's Policy of Insurance exceed Half a million of dollars, making a security in the aggregate of

VOLUME II. GOLDSBORO', N. C., THURSDAY, OCTOBER 25, 1866. NUMBER 81.

DAILY NEWS,

GOLDSBORO' N. C.

W. & J. B. WHITAKER,
PROPRIETORS.

THE ONLY DAILY PAPER BETWEEN RALEIGH and NEWBERN, and WILMINGTON and PETERSBURG.

THE VERY BEST ADVERTISING MEDIUM IN THE STATE.

PUBLICATION RESUMED.

The publication of the *Daily News*, which was suspended on the 18th of May, on account of the *total* destruction of the office by *fire*, is resumed to-day.

OUR DESIGN.

It is the aim of the publishers to make the paper all which its most sanguine friends desire it to be, a vehicle not only for the transmission of *sound political doctrines*; but for the *latest and most reliable news.*

No efforts will be spared to place the Daily *News* in the front rank of the press of the State.

OUR LOCATION.

The central position of Goldsboro', the steady and constant stream of travel which flows through it, and the ease with which news is obtained, make it one of the *most eligible points* in the State for the publication of a first class newspaper.

MARKETS.

Special attention will be paid to secure the most reliable reports from New York, Baltimore, Wilmington and Newbern, in addition to our Telegraphic Dispatches.

EDITORIAL DEPARTMENT.

The editor will endeavor to make this Department sound and conservative; but believing that the readers of a daily Journal greatly prefer having the latest *news* to any long drawn out editorials, he will seek to make his "strength by rather than lengthy," filling the limited space at his disposal with items of interest and value.

LOCAL COLUMN.

Attention will be paid to the Local Department. Items of interest for this column are solicited,—if left on our table, and are found to be unobjectionable, they will promptly appear in appropriate garb.

ADVERTISING MEDIUM.

No paper in the State offers to advertisers a better medium for the circulation of information relative to goods, wares, or merchandise, real or personal estate, which they may have for sale, or which they may desire to purchase.

Patent Melodeons.

40 Varieties, with Patent Basso Tenuto, or Sub Bass.

AUTOMATIC & SCHOOL ORGANS!

Furnished in elegant Rosewood, Walnut or Oak Cases.

EVERY INSTRUMENT WARRANTED FOR FIVE YEARS.

No charge for Boxing or Shipping.

40,000 Now in Use.

An illustrated catalogue containing full description of style, and testimonials of the most eminent musicians, as well as the superior excellence of our instruments, will be sent free to any address.

THE AUTOMATIC ORGAN.

In presenting the AUTOMATIC ORGAN, we boldly announce the greatest triumph in musical instruments of the age. During the past half century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for the feet to operate; but the want of the reversed or EXHAUSTION BELLOWS, (which is the only bellows used in our instruments,) made it impossible for them to produce the mellow, rich and musical tone for which our instruments are celebrated

Another objection to this method of blowing was, that both feet being occupied no opportunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers" have been manufactured in this country, and to counteract this difficulty (want of a swell) a lever has been projected from the centre of the instrument, to act upon the swell, *and operated by the knee* The inconvenience and contortion necessary to effect this object, are disagreeable enough to a gentleman, but to a lady the use of such an appendage is nearly impossible.

Our AUTOMATIC device obviates this difficulty entirely, the simple act of blowing with more or less force, giving the desired increase or decrease in the volume of the tone We predict for this invention a brilliant future.

The Melodeon and School Organ.

For seventeen years the superior excellence of our Melodeons has not been questioned, and for two years past the enormous demand has made it impossible for us to meet our orders promptly. With our increased facilities we feel warranted in assuring our patrons that their orders will be promptly met, and solicit a continuance of their patronage.

GEO. A. PRINCE & CO

Caution to Purchasers.

All of our instruments have upon the name boards in full, "GEO A. PRINCE & CO"—When a dealer represents any other instrument as 'the same as ours" it is usually a mere attempt to sell an inferior instrument on which he can make a larger profit.

MANHOOD.

IN THE YOUNG AND RISING GENeration the vegetative powers of life are strong. but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country This is one of the worst movements. Removed from the ordinary diversions of the ever changing scenes of the city. the powers of the body too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation, and visiting the cheek with the bloom of health Alas! increase of appetite has grown by what it fed on, and the energies of the system are prostrated, and the whole economy is deranged The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain; the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S

FLUID EXTRACT

OF BUCHU

For Weakness arising from Excesses or Early Indiscretion,

Attended with the following symptoms:

Indisposition to Exertion. Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats. Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility. Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread for Fear of Themselves, no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow *Loss of Power, Futuity, and Epileptic Fits,* in one of which the patient may expire

During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases *Insanity and consumption*? The records of the *Insane Asylums,* and the melancholy deaths by *Consumption* bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds his grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences—

DAILY NEWS.

THURSDAY, OCT. 25, 1866.

WHY THE CHANGE.—Before the war, western lands were considered fertile enough, and the western climate was said to be more healthful than the climate of eastern North Carolina. Since the war, we find a very large number of Western men seeking new homes in the Eastern counties of the State. We have always known that the lands of the East were better than those of the West; that a one-horse farm in the east was equal to a two-horse farm in the west, from the fact that our lands are free from stone, and of a character of soil much lighter as well as more productive than the rolling lands of the up country. These are long established facts; but the mystery with us is, why have our western friends been so long finding out these advantages? It is not because they have lost their slave labor, and are compelled to seek a more fertile soil—one which will pay them better for their labor, because it is well known that but few western men owned slaves—only the large farmer used slave labor, while these same men, who are now coming east, made their own corn and wheat, and harvested their own hay.

But, about this, we care nothing. We are only concerned to know that we shall have quite a number of the good citizens of the west to farm with us the next year, and we trust that success may be commensurate with their expectations, and that hundreds more "of the same sort," will come down to the garden spot of the old North State, and fill their corn cribs and barns with the product of our never-failing soil.

THE SOUTH AND THE CONSTITUTIONAL AMENDMENT.—The proposed Constitutional Amendment excludes from all offices, civil and military, under the United States, or under any State, every Southern man who, "having previ-"ously taken an oath as member of "Congress, or as an officer of the "United States, or as a member of "any State Legislature, or as an ex-"ecutive or judicial officer of any "State, to support the Constitution "of the United States, shall have "engaged in insurrection or rebel-"lion against the same, or given aid "and comfort to the enemies there-"of." This excludes the best intellects and the purest characters of the South. To reconcile the Southern people to this exclusion, and to prevail upon them to ratify the amendment, they are told by such Radical sheets as the Philadelphia Press that they "were led into the secession "movement, with all its miseries, by the misrepresentations and treasona-"devices" of these men, and they are, therefore, called upon to punish and dishonor them. This is the Radical argument, and it is gravely addressed to the Southern people.—Have we fallen so low—after going, with our minds fully informed and our eyes fully open, into secession, and after calling such men as Lee, Beauregard and Johnston to lead us—as to be capable, under any pressure, of agreeing to fix a stigma upon them? No! The crime, if crime it be, was as much ours as theirs, and the Southern people will never be so base as to purchase immunities and privileges for themselves by agreeing to ostracise and dishonor the soldiers who fought their battles. If such a Constitutional Amendment can be carried without our help, we have no remedy; if it cannot, we would not only be fools, but criminals, to give that help.

That's what the Richmond Whig says, and is the very doctrine we have been preaching for three months.

"THE WICKED FLEE, WHEN NO MAN PURSUETH."—And we might make another quotation equally applicable to the subject, which we propose to notice: "A guilty conscience needs no accuser;" and now, the subject which has called forth the above quotations, is that frightful discovery recently made by some of the Northern papers, that Southern planters, in order to revenge the injuries done them by the Northern army, have conceived the idea of packing, in their cotton, boxes of friction matches, which, it is supposed, will, when the cotton is delivered to northern factories, ignite in the process of the cotton being manufactured into cloth, and in that way, set fire to, and destroy the northern factories. We suppose such an idea never entered the heads of our planters—nor is it fair to presume that we have such bad men in our midst. Our people are but too anxious to cultivate amicable relations with the northern merchant, and of course would not pursue a course of policy, which would ultimately destroy confidence between seller and purchaser, and leave our cotton on our hands unsold.

Conscious of the great wrong done the South, the fertile brain of some Radical disunionist, has conceived this plan, by which a temporary revenge possibly might be had and has given it to the public to aid in keeping up that hatred at the north, which has well nigh already destroyed whatever of social good feeling may have been left with the cessation of hostilities. It is all a base and slanderous falsehood.

AN UGLY SQUINTING TOWARDS CIVIL WAR.—The Richmond Whig says "a storm seems to be brewing in Maryland which threatens mischief to the whole country. The Radicals declare that their police commissioners must be sustained, even against the Executive of the State of Maryland, and seem to be preparing for a demonstration of force. There are indications that the Radicals in the neighboring Northern States will go to the assistance of the "boys in blue" of Baltimore, should they precipitate a collision, and thus a general conflict between the Northern Radicals and Conservatives may be the result. With no voice in public affairs, we have no comments or advice to offer. Under the startling heading of "Imminent Danger Surrounding Us," the Constitutional Union, published in Washington, says:

"The coolness and audacity with which such members of the radical press as the Washington Chronicle call for another civil war, indicates that they are prepared, by means of money, arms and organization, for the conflict. It therefore becomes the duty of all Democrats and Conservatives to prepare themselves in like manner. We are not alarmists, but in view of the open violence already being committed by the radicals, and their threats to plunge the country into all the horrors of another strife, we counsel all our democratic brethren to organize at once. Organize! There is no time to be lost. Let the democrats of every township and voting precinct in the country enroll themselves into organizations, into companies of minute men, ready to start at the tap of the drum to defend the union and the constitution of their fathers from the attack of radical treason. The radicals have their Loyal Leagues, their Soldiers' unions and their Grand Armies of the Republic, all organized and disciplined, and thoroughly officered—it is but common prudence that we, too, should organize in like bodies. Organize, and at once. There is no time to be lost. By the first Monday in December let every man of the Conservative Democratic parties, North and South, be ready to meet what Radical treason may do."

MURDER IN THIS COUNTY.—We understand that a malicious homicide was perpetrated a few days ago near Lillington in this county.—The circumstances as far as we have been able to learn are these: A young man, named Alexander McAllister, left home several days ago to look for strayed sheep, and while in search of them stopped at a house by the roadside to rest. While waiting there and conversing with its occupants, a gun was heard to fire, and the sheep, in pursuit of which he had gone out, came running in the direction of the house. Immediately he went in the direction in which the firing was heard; and after waiting a much longer time than it would have taken him to go the distance required and return, the man who he had left went in search of him, but failed to discover any traces of his whereabouts. His body was found, however, a day or two afterwards, having been penetrated with a bullet. His throat was cut, and there were evidences of a hoe having been used to inflict the injury which produced his death. Circumstances point suspicion to a negro in the neighborhood. Mr. McAllister was engaged in the apprehension of a negro in the eastern part of this State, some time ago, and excited by his action in the matter the ill will of the suspected party.—Wilmington Dispatch.

In the Superior court considerable interest was manifested in the opening case of Jacob Hendleberg and others against the State, on charge of murder. W. T. Faircloth was counsel for the State, and Messrs. Green and Clark for the defence. Several witnesses were examined, but upon the defendants submitting to a verdict of manslaughter, judgment was suspended on payment of costs.—(Newbern Journal of Commerce.

Unfortunate old North Carolina! Guilty of manslaughter at this advanced stage of life! We shall give Solicitor Faircloth a chatting.

Latest News.

From Washington.

WASHINGTON, Oct'r. 24th.—Special dispatches state that the French Government asks for an extension of the time for the withdrawal of the first installment of troops from Mexico, until January 1st, offering in that case to waive the term allowed for the withdrawal of the remainder, and remove all substantially at one time, which proposition is not assented to.

There is no official confirmation of the reports about our Government demanding payments from England of the Alabama claims, nor that a determination has been reached to establish a protectorate over Mexico.

A lengthy letter from Secretary Browning, addressed to a Committee at Quincy, Illinois, in response to an invitation to deliver an address on political topics, is published this morning. It argues forcibly against the Constitutional amendments, and, in vindication of the President's policy, says it is his purpose as the Executive head of the nation, to maintain and preserve the Constitution as it is.

Statement from the Commissioner of Customs—Royal Decree from Spain Refering to Slavery.

Washington, Oct. 24.—The commissioner of customs has prepared a statement, called for by a resolution passed by the house during last session, with reference to the disposition made of all cotton and other property coming into the hands of Treasury agents during the war.

The state department has received a copy of the Spanish Royal decree, intended to make impossible henceforth the prosecution of the African slave trade in Cuba and Porto Rico, and provides for the emancipation of every person who is in slavery in those provinces, whenever they touch the peninsular or its adjacent islands.

ATTEMPTED HIGHWAY ROBBERY.—We learn that on Friday night of last week, as Mr. R. P. Paddison, a resident of Point Caswell, in this county, while on his way home from Wilmington, in passing a very narrow and dark portion of the road, about eleven miles from this city, was attacked by two men, who halted him and demanded from him his money. Mr. Paddison replied that he had no money, and upon the demand being repeated, drew his pistol upon them. At the first attempt the pistol snapped, but at the second it was discharged, upon which one of the men drew a pistol and fired in return, when Mr. Paddison feeling himself unhurt, and concluding that in the present instance perhaps discretion might prove the better part of valor, put spurs to his horse and escaped them. Upon examination it was discovered that the ball fired by the robber had passed through Mr. P's hat. We did not learn whether the attacking party were white or black, and have not as yet, heard of any arrests.—(Wilmington Journal.

BEAUFORT ITEMS.

IN DISTRESS.—The schooner L. S. Davis, from Wilmington for New York, out thirty days, was towed into Beaufort, N. C., on Monday with her deck load gone and she leaking, and all her crew sick. She had lost nearly all her sails. Two weeks ago the Davis was at Fortress Monroe "out of the weather," and sailing again she brought up at Beanfort on Monday. A full crew had been obtained, and the Davis was expected put to sea once more on yesterday.

SHORT OF COAL.—The late rebel steamer Georgia put into Beaufort on Friday last for coal, and sailed on Monday.

ALMOST A WRECK.—The schooner Sarah Hellen from Tampa Bay for New York, thirty-five days out, was towed into Beaufort on Saturday last, by a United States gunboat, her foremast gone and otherwise considerably damaged and out of provisions. She had been as far North as Sonquetique, but was driven back, she has succeeded in getting a foremast and will be ready for sea in a few days.

A WONDER IN HER WAY.—Lying at Beaufort, having run in there out of the rough weather, is an eighteen to twenty-foot-long sloop, her entire list of officers and crew consisting of two men. We did not learn her name nor where from, nor her destination. But this little craft with her dauntless captain and crew—two persons all told—was out in all the late rough weather. It seems her captain was not at all acquainted with the southern coast, or he might have run in at, at least a dozen places; but he kept his little shell out to sea in the midst of the gales, and was finally compelled to seek land for something to eat, and stumbled upon Beaufort, where the natives were considerably surprised to see the little stranger. The Captain proposes to sell out his ship; if he can't; he'll go to sea again in her. We wish the gallant fellow safety and success. The sloop draws two feet water, and the Captain was afraid of getting ashore, so kept seaward!

OLD BEAUFORT.—Night before last we ran down to Beaufort and returned next morning. We supped with Captain King, of the Front Street House, and was well treated by him. Business at Beaufort is in quite a flourishing condition, and all seem well contented with the crops. Fishing is briskly pushed forward and the harbor is well ornamented with shipping. Indeed everything below has a thrifty air.—[Commercial.

GENERAL BEAUREGARD IN WASHINGTON—THE LADIES KISS HIM.—It will afford the southern "rebels" much satisfaction to read the following outburst of indignation:

To the Editor of the Chronicle:

On Monday night, at Wall's Opera House, was given a dramatic performance for the benefit of the "southern Aid Society." Prominent amongst the spectators was General Beauregard, who occupied a private box. When he made his exit at the end of the play it was enough to make all loyal folks blush to see the "sympathizers" crowding around him, grasping his hand, yet red with the blood of our brothers. Some *ladies* went so far as to kiss him. Please make an item of this for the public to ponder over.

which they need not pay until it is known what is drawn and its value.

THE AMERICAN JEWELERS ASSOCIATION calls your attention to the fact of it being the largest and most popular Jewelry Association in the United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe owing to the late German war and recent disastrous financial crisis in England, has caused the failure of a large number of Jewelry Houses in London and Paris, obliging them to sell their goods at a great sacrifice, in some instances less than one-third the cost of manufacturing. We have lately purchased very largely of these Bankrupt Goods, at such extremely low prices, that we can afford to send away Finer Goods, and give better chances to draw the most valuable prizes than any other establishment doing a similar business. OUR AIM IS TO PLEASE, and we respectfully solicit your patronage as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is worth less than One Dollar, retail, and there are no blanks. Parties dealing with us may depend on having prompt returns, and the articles drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the American Jewelers' Association, and kindly allowed the use of their names:

LOCAL.

ALMOST A FIRE.—Yesterday afternoon, the Bakery near the "Derby" Restaurant caught on fire from the stove pipe, and for awhile, it was thought a general conflagration would be the result. It was, however, extinguished before much damage was done. Let this be a warning to our citizens, to watch vigilantly, their stove-pipes and chimneys, and avoid the destruction of our town.

FAST RIDE.—Through the courtesy of our townsman, W. R. Privett, Esq., we were treated last evening to a buggy ride, drawn by his celebrated horse "Buckskin." And it was a treat indeed—not only the fast travelling, but we enjoyed the steady, unbroken gait of the noble animal, whose equal cannot be found. "Buckskin" carries himself pompously, moves smoothly, and is, withal, the finest animal in these diggins.

Much has been said about a fast horse recently exhibited at the Henderson Fair from Danville, Va., and perhaps he was the fastest *ere ur* on the ground, or he would not have won the race; still, if "Buckskin" had been there, no laurels would have been won by the Danville horse. Not much.

☞ We trust our worthy board of commissioners will at once proceed to have sunk some half dozen or more wells on our streets, and have good pumps placed in them; and in the meantime, order a good fire engine, and let us be in readiness for another fire, if unfortunately we should be visited with such a calamity. It is useless to say you havn't got the money; tax the people, and get the money; it is better for us to pay a few shillings in the way of taxes, than to lose our property by fire.

When we look over our town, and see the mass of wooden buildings, we tremble to think that they are all at the mercy of the devouring element—not enough water, nor an engine, to meet such an emergency.

Let this matter be attended to at once.

☞ Our compositor made it appear yesterday, that Fulghum & Co., were selling Fine Silk Dresses, Boots and Shoes, &c. R. T. Fulghum is *the man* who has these fine and cheap goods, and R. T. Fulghum & Co., are *the men* who own the extensive family grocery presided over by our accommodating friend, Hutton.

SURVEYING THE GROUNDS.—We hear it intimated that there is some under current talk relative to our approaching municipal election—that prospective candidates are feeling around and surveying the grounds, and making calculations as to probable chances of success, should they consent to run. We do not *know* who these aspirants are—have not heard names mentioned—but whoever they may be, they may rest assured that the people will demand of each one a *show* of hands as to their political status, as well as their local intentions and designs, should they be elected.

Uncommitted as we are, to any particular policy, we shall, nevertheless expect *our* candidates to be men of liberal ideas—quick to see, and to repair any public deficiency in streets and bridges, and to put the town in a position to fight fire, as well, also, as to lay a *heavier* tax on the numerous table merchants of African descent, who hang about demoralizing the better disposed portion of our town. And, if we can find such candidates, they will secure our support—if we cannot find men who will thus pledge themselves, we shall enter the field ourself, and stump the town from one end to the other.

PILING IT ON.—The Petersburg Index of Wednesday, has no less than six articles, all of which are directly aimed at the local editor of the Raleigh Progress.

Scatify, Susey!

We look for sharp work and "starsling news from the front."

DISTRIBUTION.—We would call attention to the opinion of one of the leading papers of Canada on this subject:

Most of our readers have no doubt read some of the numerous advertisements of Gift Enterprises, Gift Concerts, &c., which appear from time to time in the public prints, offering most tempting bargains to those who will patronize them. In most cases these are genuine humbugs. But there are a few respectable firms who do business in this manner, and they do it as a means of increasing their wholesale business, and not to make money. From such firms, it is true, handsome and valuable articles are procured for a very small sum, and what is more important, no one is ever cheated. Every person gets good value for his dollar; because, as we have stated, it is intended to act as an advertisement to increase their ordinary business.

We have seen numbers of prizes sent out in this way by SHERMAN, WATSON & COMPANY, of Nassau street, N. Y., and there is no doubt that some of the articles are worth eight or ten times the money paid for them, while we have not seen or heard of a single article which was not fully worth the dollar which it cost. But this is only one of the exceptions of this rule, for as a general thing the parties engaged in this business are nothing but clever swindlers.—Saturday Reader, Montreal, C. E., Jan. 13, 1866.

IMPORTANT DECISION.—At Sumter Superior Court, the present week, Judge Speer presiding, says the macon *Telegraph*, a decision was made that may be of general interest. A negro was arraigned on an indictment for rape, when his council moved to dismiss the proceedings, on the ground that the party charged had already been arraigned, tried and punished by a military or provost court, the crime having been committed upon the person of a white woman, and the punishment inflicted, ball and chain for three months. The Judge decided that the plea could not avail the prisoner unless it should be shown that he belonged either to the army or navy of the United States.

The trial thereupon proceeded, and the party was convicted and sentenced to twelve years in the penitentiary. —*Augusta (Ga.) Constitutionalist.*

COLORED JURYMEN.—The Boston Commonwealth states that at present there are four colored jurymen serving in the various courts of that city—one in the superior court for criminal business; one in the first session of the superior court, for civil business; and two in the second session.

THE SILVER CUP.—We learn that the beautiful silver cup, presented to the Granville county agricultural fair by Messrs. B. P. Williamson & Co., of this city, to be given to the owner of the fastest trotting horse, was awarded to Mr. T. Paxon, of Buffalo springs, Va. We do not much relish the idea that the citizens of our sister State should bear off both the honor and rewards of our fairs, and we insist that North Carolinians shall see to it in future that their horseflesh is in better condition.

We were present during the progress of the fair and gladly bear testimony to the high appreciation in which Messrs. Williamson & Co. are held, not merely for this gift, but as business men of much public spirit and liberality.—(Progress.

COL ALTO NURSERIES.

GREENSBORO', N. C., Oct. 6.

Editor of the Patriot: Since I caused to be inserted in your paper, and fourteen others, a few weeks ago, an advertisement for the sale of Fruit Trees, Grape Vines, &c., by Westbrook & Co., Greensboro', N. C., of which firm I am the Senior partner, a goodly number of letters from nearly all parts of the South have been placed in our box, addressed to the above named company for Catalogues, and also orders for Fruit Trees, &c., which I have received regularly, and without hindrance or molestation, and attended to with promptness and dispatch, until the first of this month, when Messrs. Pettingill and Kuhn, formerly of Ohio, at present in charge of the old West Green Nurseries, called at the Post Office and claimed all letters addressed to Westbrook & Co. These gentlemen have, during the past few weeks, succeeded Messrs. Turgee & Kuhn, who came South in October, 1865, and leased the old West Green Nurseries of Mr. C. P. Mendenhall, the surving partner of the firm, known before the war as Westbrook & Mendenhall. Now, Mr. Editor, yourself and the public generally, who have seen the advertisement of the West Green Nurseries in the Greensboro' Patriot during the past twelve months, (and it may now be seen,) know very well that Tourgee & Kuhn advertise themselves successors to Westbrook & Mendenhall." During this week I see, not a new advertisement in the public journals, but a new circular containing a list of prices, in which it seems that a Mr. Pettengill has taken Mr. Tourgee's place as senior proprietor of West Green, and this new born firm advertise themselves successors to Westbrook & Co., when they are really and indisputably successors to the late firm of Turgee & Kuhn.

Mr. Editor, I regard you a servant of the public, and I verily believe you have the public weal at heart, and will contribute your undivided efforts to impede, if not effectually check the rapid strides of trickery and fraud. I therefore confidently expect you, and all journalists who advocate justice and equity in our beloved State, to give publicity to this brief, simple statement of facts. And if the public require proof of the statement, I can produce the names of one hundred of the first citizens in this community in testimony to its truth. The truth is, Mr. Editor, myself and partners in business at the present time are grievously wronged, because the claim of these two men from Ohio upon our letters scares the Postmaster almost out of his wits, and he writes to the Postmaster General to know what to do, and in the meantime tells us we must wait eight or ten days, or possibly two weeks or more until he gets advice from the Post Office Department, while in the meantime our letters lie unanswered, and the result will be a failure on our part to receive a number of orders for Fruit Trees, &c., that might be worth hundreds and thousands of dollars to us, because next month is the best planting season, and those interested in the Planting of Orchards and Vineyards, seeing the advertisement of Westbrook & Co., in the latter part of September, write in the early part of October for our new Catalogue that they may have time to select their favorite kinds and send in their orders in the early part of November. But their letters being detained or intercepted by another party by intrigue, our correspondents grow impatient, and when they find themselves silently treated by us, or while waiting, receive a circular from the two Ohio adventurers, they conclude at once that we are practising deception on the people—that the name Pettingill & Kuhn is simply synonymous with Westbrook & Co., that we are all Yankees together and playing a splendid game of Yankee tricks, and the final result is they will, if ungodly, curse us and our Ohio competitors as one and the same.

But Mr. Editor, I claim the senior proprietorship of quite a different Nursery from that at West Green as it now exists. True it was a great Nursery until the beginning of the war, when my father died and I being in the army the Nursery died with him.

Yourself and not a few of our citizens are fully aware that I am the eldest son of S. W. Westbrook, the late senior proprietor of "West Green Nurseries," the leading Pomologist, Dendrologist Horticulturist, Floriculturist, and Pioneer Fruit Growers in the South, who, by the superiority of the excellent fruits grown in his experimental Orchards, and the beautiful and thrifty Trees and Plants produced by the hundreds of thousands in his Nurseries and offered to the public by himself in person—induced a large portion of the community at large, by his enterprising spirit and sound forcible reasoning, to plant Orchards and Vine-yards, thereby disseminating his choice fruits thro' all parts of the South, and even pushing his enterprise into the Northern States, and succeeded in such a degree as to take premiums at the meetings of the American Pomological Society.

Now, Mr. Editor, I wish our people to know that while my father was engaged a great portion of his time in travelling to and jro receiving orders from our countrymen, and attending to the outside business of the nursery, I was at "West Green" in charge of a corps of operators, conducting in a most complete and successful manner the propagation, planting, nursing, training, cultivation and general management of the nurseries; besides, watching with a vigilant eye the nomenclature and keeping it correct, (which is most important, essential, and absolutely necessary in the successful conduct of a nursery.) And I was, and am now prepared to keep the varieties properly named as I am so familiar with all the prominent fruits that I can name young or old trees accurately and promptly in nursery or orchard without labels, register, fruit or leaves. Often did our operators, in grafting and budding—through carelessness—get the kinds mixed, and I always invariably went through the nurseries row by row, and made the required corrections before a single tree was lifted from the soil. My father, though some times present would never perform this office, and acknowledged frankly to many of his pomological friends, that my practical knowledge of the science far excelled his and that of any one he ever saw.

Mr. G. W. Johnston of Milton, N. C., the most distinguished Amateur in the South, made the admission in 1860, after I had examined one of his orchards, containing four hundred kinds of apples, which he received of prominent Nurserymen in America and Europe and discovered to his satisfaction, that thirty of the kinds were but synonymous of other varieties. Enough has been said of my knowledge and training. And now, Mr. Editor, is it just that my name, which I not only inherit from my father, but the reputation of which name by dilligent study, and activity in business, I made myself, should be claimed and used by a couple of foreigners just because they have leased and hold for a time "West Green Nurseries,"

Mr. Editor, I regret that I have been compelled to appeal to the press and my countrymen for redress and protection of our Nursery and patrons against imposition. We welcome heartily any man into our community from the North or South as a Nurseyman if he will stick to his own name and let ours alone.

We wish it distinctly understood that we will not be responsible for the productions of any Nursery except our own.

We advertised last season as Westbrook & Albright, but this summer we found it convenient and expedient to take a third partner and we have the right to have our patrons address us Westbrook & Co. To prevent any mistake we would prefer that our correspondents address us Westbrook & Co., Box 66, Greensboro, N. C. Hoping this letter will be copied by the leading journals for the benefit of all concerned, I subscribe myself, very respectfully,

Your obedient servant,

C. W. WESTBROOK.

The Louisville Journal says: "The testimonials which Dr. Gardner presents of the public could never have been obtained, except by the display of great skill and learning in his profession. One thing especially commendable in the Doctor's practice is, that he will not accept an incurable disease for the sake of a fee but frankly tells the patient whether he can be cured or not. We cheerfully recommend Dr. Gardner to the attention of all our friends who may be suffering from diseases of the eye or ear.

The Richmond *Times* says: We have no hesitation in saying that Dr Gardner is the most scientific and successful eye and ear surgeon in this country.

'Dr Gardner's treatment of the eye and ear is wonderful."—*Richmond Enquirer*

TO THE WOMEN OF THE SOUTH.

The end we propose is the cause of the South. It is neither party, nor section, nor division. The obligations of the survivors to the memory of the martyrs of the war address the South as one family, wherein, though there will be degrees of affliction and bereavement, none are without sorrow and grief. It is not, however, to hearts crushed by personal sorrows so much as to gratitude cherished for noble deeds by noble men, we appeal. With this the southern heart throbs with one impulse, and is ready to testify its inextinguishable sympathy.

It shall be our endeavor to rescue from the oblivion to which they are passing the graves of the great host which perished in the war, and sleep undistinguished in our cemetery. Their memory, history will transmit from age to age, propounding without number illustrious examples from which the noblest of every age may catch new inspiration We propose the humbler tribute yet the more touching to relatives and friends, and even to the general heart,—that of identifying with durable monuments the ground where sleep the honored dead—tempting thither by its becoming habitude the countless throng, who would do homage to such dead. Our designation is "Hollywood Memorial Association of Richmond"—pledged to apply the means which may be provided to the permanent protection and adornment of the graves of the Confederate dead interred in Hollywood Cemetery. Those contributing to the association will be enrolled as members; and contributions may be remitted to the Treasurer, Mrs. CHAS. G BARNEY, Box 810; and letters addressed to the Corresponding Secretary, Mrs. DR. JAS. BOLTON. Information will be furnished at all times by the President and by any member of the Memorial Committee.

There is but one thing left us, as a people which no enemy's hand can wrench from us:—"The memory of the Past"—Let us then keep bright the most precious jewel in our crown of sorrow"—the graves of our glorious dead Let a people's gratitude lay immortal laurels o'er

"The sacred grave
Of those who vainly brave
Died for the land they could not save."

Virginia calls to us to assist herin the sad pleasure of perpetuating the memory of our fallen, in the eyes of the world, by erecting fitting monuments in Hollywood Cemetery, at Richmond. The work is one in which every Southern woman should delight to do her best.

I appeal to the women of North Carolina to come forward and aid their sister State, in paying the last tribute to the defenders of our "Lost Cause," remembering with feelings of just pride, that thousands of our heroic soldiers sleep well on the soil of Virginia.

I shall take pleasure in forwarding to the Treasurer of the Hollywood Memorial Association, any contributions I may receive for this purpose

"A CALENDAR FOR THE CHRISTIAN Era, combining the Julian and Gregorian modes of reckoning time, by James Rumley, of N. C."

Copyright Secured.

The subscriber having copy righted this most valuable of all the "Calendars" ever presented to the public, is prepared to supply the demand for them to any extent.

Previous Efforts.

Many attempts have been made, from time to time, to secure a Calendar by which all the dates of the Christian Era could be accurately, and at the same time readily, found. These attempts have heretofore signally failed, because the authors have sought to condense too much, and because they are really not conversant with the subject of which they treated, and which they vainly endeavored to elucidate.

What I claim.

I claim for the Calender now presented, perfect simplicity of arrangement, combined with the most infallible accuracy. The plan is so simple that any one who can use an ordinary Almanac, or Counting House Calendar, cannot fail to see clearly into the working of this. *Time past, present or future can be immediately found.*—Its accuracy will bear the test of the most rigid scrutiny. I invite criticisms, and confidently appeal to an enlightened public judgment for a frank expression of opinion as to its merits.

Supplies a Want.

To supply a want long felt, the author has appended to the Calendar, under the head of "Explanatory Remarks," a succinct, but most valuable history of the Julian Calendar from the time of Julius Cæsar, and of the astronomical causes which led to the change made by Pope Gregory XIII, in 1582 These notes alone are worth the price of the Calendar.

OBJECTIONS ANSWERED.

If any object to the space the Calendar occupies, the objection is answered by the reply that any attempt at condensation would be a sacrifice of simplicity, the fatal rock on which every previous attempt has been wrecked.

WHO SHOULD HAVE IT.

Every professional man, every mechanic and farmer, all merchants and tradesmen should supply themselves with copies at once.

TESTIMONIALS.

One of the first mathematical minds of this country, Prof. Charles Phillips of the University of North Carolina, thus speaks of the Calendar:

UNIVERSITY OF N. C.
Thursday, June 21, 1866

COL. S. D. POOL,

Dear Sir

I thank you for the pleasure I have had in examining your perpetual Calendar. It is a thing of beauty—simple, extensive and accurate.—Every one who refers to dates ought to have a copy of it; the man of business, for the *present*; the student of history, for the *past*; and the dabbler in prophecy for the future. To use it, with readiness and precision, one needs only brain enough to remember the year,—the month of the year,—the week of the month and the day of the week and this is about as little brain as one can get along with in these times. I found out at once some things I did not know before, viz: that the 4th July 1776 happened on Thursday, and that the 4th of July 1876 will happen on Tuesday.—Also, I was born on Thursday—a truth that is not in the family Bible I am afraid you will never be paid for your trouble for if the thing went wear out, it wont get out of date.

Again I thank you for my treasure.

Your Respectfully

CHARLES PHILLIPS.

Gov. Swain, President of the University says: "he entirely concurs with Pro Phillips in the views he entertains concerning the value of your Almanac."

The Newbern *Commercial* having thoroughly examined the Calendar thus writes of it:

A CURIOUS CALENDAR.—We have received from our esteemed cotemporary, Col. S. D. Pool, of the Goldsboro' *News*, a most simple yet erudite chart, entitled "A Calendar of Dates for the Christian Era, Combining the Julian and Gregorian Modes of Reckoning time." At the request of Col Pool, who is the proprietor of this unique production, we have carefully examined it, and find it to be one of the least pretentious and most curious publications of the day. By its use we can readily find, by the Gregorian, or New Style, the day of the week, answering to any given day of the month, or the day of the month answering to any given day of the week, from the year 1600 to any future period, while the Gregorian calendar remains unaltered; and can find thesame by the Julian, or Old Style, in any former year of our era or in any year to come.

The Dominical letters of the Julian calendar are introduced into the table, because that calendar was in use in this country and Great Britain until September, 1752, and was in use in Christian countries until those countries adopted the Gregorian calendar, and actually is now in use in Russia. Although we have the inclination, we have not space to speak of this excellent chart as we would like, but we will say that the established reputation of Col. Pool, as a superior scholar, will not suffer by its publication under his auspices

The author is Mr. James Rumley of Beaufort, N. C. who, during the war undertook its production as a labor of love, and presented it to his friend, Col. Pool, as a token of his friendship and esteem. The price is fifty cents, and it is for sale by Col Pool.

Numerous other testimonials to the value of this ingenious, scientific and valuable work could be adduced, if necessary; but we deem the above sufficient to bring it to the attention of the public. When once examined its merits are at once disclosed.

PRICE.

On Large cards 10x14, neatly printed, for Counting room, Office, or Library: Fifty cents per single copy; Four dollars for ten copies; Thirty-five dollars per hundred.

AGENTS WANTED.

I desire to secure agents for every State city and county in the United States.
